

Occupational And Environmental Reproductive Hazards: A Guide For Clinicians

1. The Quick Survey

Chief Symptom and History of Present Illness

- "What kind of work do you do?"
- "Do you think your health problems are related to your work?"
- "Are your symptoms better or worse when you're at home or at work?"

Review of Systems

- "Are you now or have you previously been exposed to dusts, fumes, chemicals, radiation, or loud noise?"

2. Detailed Questioning Based on Initial Suspicion

Self-Administered Questionnaire for All Patients

- Chronology of jobs
- Exposure survey

Review of Exposure, With the Questionnaire as a Guide

- More about the current job: description of a typical day
- Review of job chronology and associated exposures

Examination of the Link Between Work and the Chief Symptom

- Clinical clues
- Exploration of the temporal link in detail
- "Do others at work have similar problems?"
