Ludwig, D.A., C.R. Andrews, N.R. Jester-Ten Veen, and C. Laqui. *ACRP Report 1: Safety Management Systems for Airports, Volume 1: Overview*. Transportation Research Board of the National Academies, Washington, D.C., 2007.

This report explains what a safety management system (SMS) is and how a systems approach to safety management will benefit both the safety and business aspects of airports. The implementation of SMS represents a change in the safety culture of an organization. In this regard, airport directors and members of their governing boards will find this document particularly useful, because the successful implementation of SMS is dependent on the commitment of the highest levels of management.

Muia, M.J. *ACRP Synthesis of Airport Practice 4: Counting Aircraft Operations at Non-Towered Airports*. Transportation Research Board of the National Academies, Washington, D.C., 2007.

This synthesis report identifies and evaluates the different methods used by states, airports, and metropolitan planning organizations (MPOs) of counting and estimating aircraft operations at nontowered airports with the goal of identifying best practices. Also identified are new technologies that can be used for these counts and estimates. Information used in this study was acquired through a literature review; a survey distributed to all 50 state aviation agencies and selected airports and MPOs; contacts with manufacturers of counting equipment and aviation trade organizations; and follow-up telephone interviews and e-mail correspondence, where appropriate.

Nichol, C. *ACRP Synthesis of Airport Practice 1: Innovative Finance and Alternative Sources of Revenue for Airports*. Transportation Research Board of the National Academies, Washington, D.C., 2007.

This synthesis report is intended to inform airport operators, stakeholders, and policymakers about alternative financing options and revenue sources currently available or that could be available in the future in the United States. The report provides a brief overview of common capital funding sources used by airport operators, a review of capital financing mechanisms used by airports, descriptions of various revenue sources developed by airport operators, and a review of privatization options available to U.S. airport operators. Information used in this study was acquired through a review of the literature and interviews with airport operators and industry experts.

Spitz, W., and R. Golaszewski. *ACRP Synthesis of Airport Practice 2: Airport Aviation Activity Forecasting*. Transportation Research Board of the National Academies, Washington, D.C., 2007.

This synthesis report reviews current practices and methods in airport activity forecasting in the United States. The study addresses how airport forecasts are used and identifies common aviation metrics, aviation data sources, issues in data collection and preparation, and special data issues at nontowered airports.
